## NOTICES OF THE PRESS.

A notice of our journal occupies nearly a page of the September no. of the Coin and Stamp Collector's Magazine; an interesting monthly of 16 pages, published at \$1 50 per annum by Mason & Co., 139 North 9th. st., Philadelphia. The editor in criticising our first page, expresses, we presume, the sentiments of most of our readers upon their first trial by saying:

"We hope Brother Brown will let his first effort in the line of mixed and lightning struck English suffice, for we cannot speak, or spell correctly, since reading this conglomeration of crazy alphabetical characters, which look, for all the world, as though they had been 'out on a drunk,' and were endeavoring to form a line of inverted fish hooks."

The best medicines are often bitter to the taste, and we did not expect that the aforesaid publishers, after four years of incongruous spelling, would adopt our systematic method without resistance. We find, however, on another page, that with stamp collecting, which at first appeared to them a trifling and frivolous pursuit, they are now completely infatuated, and we hope that after duly examining the merits of the kosmic, they will arrive at as happy a conclusion.

We are informed by Messrs. Alfred Smith & Co., of 6 Bath st., Bath, England, publishers of the Stamp Collector's Magazine, a 24 paged monthly, price 4s., that owing to a change in the postal regulations, the postage to the U. S. will in future, be 2s. per year. Since its commencement, this has been the leading periodical on the subject. No. 92 for Sept., has a full account of the expected Angola and Prince Islands stamps, of the values 5 10 20 25 50 and 100 reis; and of the forthcoming ½ penny stamp, wrapper, and post card of Great Britain. We have received from the publishers the fourteenth edition of their price catalogue, and shall be happy to take any orders from it.

The Philatelist, a monthly magazine of 20 pages, published by Stafford Smith & Co., Colonnade, Brighton, England, at 3s. per year, foreign postage extra, has in No. 43 for Sept. a valuable article on the detection of the Swiss forgeries.

We notice that the American Numismatic and Archeological Journal of New York, has been discontinued, but is resumed under the title of the American Journal of Numismatics, and published quarterly by Jeremiah Colburn, 17 Bromfield st. Boston Mass. at \$2 per year. It contains 24 pages of articles of interest to coin collectors, and the records of the various numismatic societies of the United States.

The most important item in numismatics is the four days sale of the collection of Wm. Fewsmith of Philadelphia, which is to take place at Clinton Hall Oct. 4th, and is particularly rich in the American series. The dollar of 1804, half dime of 1832, Washington half dollar and George Clinton copper are lacking, but there are enough rarities to bring all the best collectors.

We have received catalogues of the collection of Postage stamps to be sold at auction Oct. 3rd., which will, we presume, to those who prefer unused stamps and collect Essays, be a great treat. To our regular customers, our charges for purchasing at auction sales are 10 per cent. on cost.

September commences the Weekly Journal of Philately, published by J. W. Scott & Co., of 34 Liberty st. N. Y. City, price \$2. It has 12 pages with an engraving in each No; descriptions of new stamps, and some of the best articles from European publications. The monthly edition of 12 pages at \$1. per year, on fine paper, is compiled from this, and has illustrations in the original colors. We understand that the publishers distribute 25,000 copies of some numbers gratis; with this outlay a paper is almost sure to succeed.

The American Stamp Mercury, a monthly Journal of 28 pages, published by F. Trifet & Co. of Boston at \$1 per year, comes for Aug. and Sept. in a double no., it has 19 plates describing new stamps, and a description of the various Private Revenue Stamps; nearly all the remaining articles are taken from other periodicals.

For want of space we give this month a very short list of coins, autographs &c., but will give more next no. also list of newly issued stamps. We are continually purchasing collections of curiosities at our store No. 28 John St. (in connection with Wm. Erving's Antiquarian bookstore.)

# PRICE LIST OF FOREIGN POSTAGE STAMPS.

7

All stamps sold by us are warranted genuine. Where more than one stamp is described on the same line, the price is so much for each. All letters of enquiry, or orders under 25c., must contain stamps for reply. Money sent by P. O. Order or Registered letter only, is at our risk. For those marked with a (\*), we will allow  $\frac{1}{2}$ ; and for those marked with a (.),  $\frac{1}{2}$  our list prices in exchange, for a limited quantity in good condition.

The above illustration is taken from a silver coin in the possession of a young man in this city, and was handed down by his grandfather as a family relic. A similar coin was described in Dickeson's numismatic manual, and was sold in the Mickley sale for \$32; also the 1000 piece of double the size for \$70. The figures represent 500 millesimos Spanish money, and it was the first pattern for a half dollar of Colonial money.

This coin is the only one known of this variety, and has never before been described; it is in fine condition, size 15½ American scale, with engrailed edge; but owing to a slight flaw has not a good ring. The one from the Mickley collection was size 17, and had "CONFEDERATIO" with a mint mark on the obverse.

#### NOTICE OF AUCTION SALE.

Another sale of Postage stamps, from Mason & Co., of Philadelphia, was held at Leavitt Strebeigh & Co's, on Thursday evening, Sept. 8 1870.

The novelty of a stamp sale being over, and but few scarce stamps to encourage collectors being catalogued, the attendance was small, and the bids were mostly from dealers.

The highest bids were; for 3 Buenos Ayres of the Guacho series, 4 6 & 8 reales, \$15; Mobile 5 c. blue, used, \$2 75; set of 6 French Republic, unused, \$2 25; 5 Corrientes, do., \$2 12; Lallier's album for 1870, \$4 25. A lot of rare proofs and essays of U. S. stamps brought about 50 c. each; one for a \$200 revenue, \$1 50. The proceeds of the sale were about \$175.

#### THE U. S. LOCAL STAMPS.

We have many calls for complete sets of these stamps, but most of those which now fill the pages of collectors are imitations, and many of the originals having become rare, bring from 25c. to \$10. Having bought and sold these stamps before imitations were thought of, we know of no better authority on those of the Northern states.

About the year 1861, a great demand arising in Europe for them, Messrs. Kline of Philad'a. and Hussey of New York, undertook the supply. From some of the original proprietors they obtained enough to meet their wants, from others, the original plates, but the majority were reproductions in the original colors, which were so neatly done as to be generally accepted by dealers, and are yet sold in packets by the largest firms in Europe. The imitations of Taylor of Boston, not being so well executed, and displaying so many new colors, are generally discarded.

From the original varieties now obtainable, we have selected packet P, which contains no fancy colors and are all from the original plates. Others which we may be able to obtain, we shall catalogue separately on our inside page.
